

SCREW EXTRACTION PLIERS **VamPLIERS™**

The Ultimate Screw Extractor
Rusted, Stripped, Stuck...No Problem!

VamPLIERS Mini 5"

VamPLIERS 6.25"

VamPLIERS Slip-Joint 7"

VamPLIERS Pro 8"

MADE IN JAPAN

Take A Bite Out Of Your Fastener Extraction Problems.

VamPLIERS™ The Ultimate Bite that Easily Removes the Toughest Fasteners.

The VamPLIERS™ family of screw extraction pliers incorporates the patented VamPLIERS™ Technology. This technology provides a solution to extracting the toughest screws, nuts, and bolts, including tamper-proof, one-sided, low profile, and specialty screws, like Torx Screws.

Available in four different sizes to accommodate a wide variety of stuck fastener sizes in constricted spaces to large fasteners found in industrial applications. VamPLIERS are uniquely perfect in Maintenance, Repair and Operations (MRO) applications.

How It works

VamPLIERS™ Technology a patented design that utilizes a concave curvature and both vertical and horizontal serrations that lead down the inside of the jaws to the tip of the nose forming teeth for the perfect “bite” around the screw’s head.

Both vertical and horizontal serrations grasp a screw head without slipping.

Ordinary Pliers

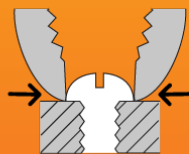

The jaws of ordinary pliers are lined with horizontal serrations. Where you grasp and turn a screw head with ordinary pliers, the jaws slip and the screw remains stuck.

“VERTICAL SERRATIONS”

VAMPLIERS™ specially designed jaws create multiple contact points around the screw head.

“MAXIMIZES CONTACT”

VAMPLIERS™ employs a concave design to maximize the friction between the serrations and the screw.

VamPLIERS™ - Screw Extraction Capacity

VamPLIERS *Slip-Joint 7"*

VamPLIERS *Pro 8"*

Model		VT-001-5	VT-001	VT-001-7SJ	VT-001-8
Size		5 in/120 mm	6.25 in/159 mm	7 in/175 mm	8 in/200 mm
SCREW SIZES	Top Jaws	M1 ~ M2	M2 ~ M4	M1.7 ~ M6	M1.6 ~ M9
		0.08 ~ 0.13 in.	0.08 ~ 0.16 in.	0.12 ~ 0.39 in.	0.11 ~ 0.59 in.
		2.0 ~ 3.5 mm	2.0 ~ 4.0 mm	3.0 ~ 10 mm	3.0 ~ 15 mm
	Side Jaws	M2 ~ M3	M3 ~ M5	M3 ~ M8	
		0.14 ~ 0.21 in.	0.12 ~ 0.20 in.	0.22 ~ 0.55 in.	
		3.5 ~ 5.5 mm	3.0 ~ 5.0 mm	5.5 ~ 14 mm	

Industries Served

Universally made to handle jobs in all areas of the workplace, even in the home VamPLIERS™ have made its name as the go-to screw extraction tool. VamPLIERS™ are serving many skilled technicians in various maintenance, repair, and operation industries across the world.

- AUTOMOTIVE
- PLUMBING
- AVIATION
- MARINE
- MOTORCYCLES
- HVAC
- HEAVY EQUIPMENT
- INDUSTRIAL
- ELECTRICAL
- HOME
- D.I.Y.
- AND MORE

VamPLIERS™ Screw Remover Features & Benefits

- Easily remove problem fasteners like screws, nuts, bolts, Torx screws, specialty screws and more.
- Side jaws can be used for screw extraction.
- Teeth-like formation at the nose giving you more contact with the screw head.
- Made in Japan with hardened Kobe steel for maximum strength and durability.
- Coupled with elastomer grips for comfortable non-slip grips.
- Jaw surface hardened to Rockwell Standard HRC58 ± 2
- Patented VamPLIERS™ Technology to easily remove stuck, rusted, and stripped screws.
- All VamPLIERS are RoHS compliant.
- VamPLIERS *Mini* is ESD-Safe for use with electronics.
- VamPLIERS *Slip-Joint* is designed to handle different sized screws in one making for efficient work.
- VamPLIERS are made with a return spring to easily take the next bite on your screws.

VamPLIERS™ Reviewed

VamPLIERS™ Technology has been tried and tested by plumbers, electricians, mechanics and many other technicians in the maintenance, repair, and operations industries across the world.

VamPLIERS™ have been reviewed in a variety of popular publications, blogs, and more with only positive reviews on how these unique tools save time, money, and time on the job.
